

MISSION STATEMENT

Our vision Our mission Our strategy

OUR MISSION

To create health equity by delivering health and wellness services in the system, while working on the system.

OUR STRATEGY

We deliver high quality, accessible and affordable multicultural health and wellbeing services for marginalised migrants, refugees and people seeking asylum.

We also work on the systems that create health inequity in the first place through high quality representation, training & education, research & data and lived experience.

OUR VISION

An equitable Australian health system.

We exist to create **health equity.**
